Aces of hearts cpr

All Event Categories #04e8e0 - BLS for the Health Care Provider Renewal Class Due to the importance and critical practical skills required to perform effective cardiopulmonary resuscitation (CPR), the American Council on Exercise does not recognize any CPR courses that are taught online without a practical competency assessment verified by a qualified CPR instructor. Therefore, only one course where participants receive a CPR card by demonstrating their skills will be accepted. NOTE: During the covid-19 crisis, there is an extremely limited availability of online competency checks for CPR/DEA in response to the CDC's social distancing recommendations. In order to accommodate ACE certification candidates and ACE certified professionals who must recertify, we are temporarily waiving the online competency verification requirement until June 30, 2021. If you sign up for a CPR/DEA joint course that includes online and live components in person, we will accept a certificate of completion for only the online part to meet your CPR/DEA requirements to take the exam or renew your certification. National CPR Suppliers International CPR CPR Suppliers is a mobile CPR training company in Pittsburgh, Pennsylvania. Our mission is to make life-saving CPR training more accessible to all. We offer on-site training in your office, home, gym, or anywhere else you can think of!
